

Rockbot
by Rockbot

The best music service on planet Earth. Replace your “background muzak” or Pandora with customized music YOU control.

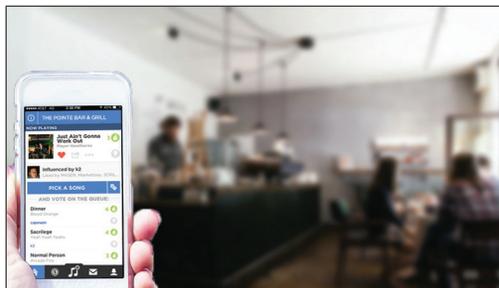

Take control of your vibe and play customized music at your business. Rockbot gives you 100% control over your playlist scheduling, offers you more music than any other solution, and engages your customers with the #1 rated jukebox app in the world. Try Rockbot free on Clover.

Easily customize the sound of your business by choosing from Rockbot's curated stations or building your own perfect playlist

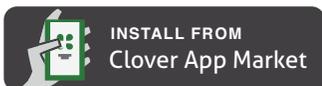

Schedule your music by time of day, add or exclude specific songs or artists, and easily manage your settings

Customers use the Rockbot app to vote on your music, pick songs, and share your brand on social media

Rockbot's marketing features promote your “specials” to customers and increase social media buzz for your brand
